## DR. NANSEN IS SAFE.

The Arctic Explorer Has Arrived at Vardo Island

### ABOARD STEAMER WINDWARD.

Failed to Reach the Pole but Touched a Point Four Degrees Nearer Than Had Been Previously Accomplished—Sketch of the Brave Scientist and His Vessel. How He Was Rescued.

MALMO, Sweden, Aug. 14.—The newspaper Dagens Nyheter has received communications from Dr. Nansen and Lieutenant Schotthansen from the island of Vardoe.

These communications state that they abandoned the Fram in the autumn of 1895 and resorted to the ice.

The steamer Windward, carrying supplies for the Jackson-Farnsworth expedition, picked them up near Franz Josef Land. They expected that the Fram would eventually drift to the east

coast of Greenland. Dr. Nansen failed to reach the north pole but he touched a point four degrees nearer than any other explorer has done.

The steamer Windward took letters for Nansen when it started to the relief of the Jackson-Farnsworth expedition, as Mr. Jackson expected to find Nansen and was convinced that his idea of drifting across the pole in the ice was impracticable. He was also convinced that Nansen would return in the direction of Franz Josef Land.

Dr. Nansen left the Fram on March 14, 1895, in 84 degrees north latitude. He traversed the Polar sea to a point 86 degrees 14 minutes north latitude, situated north of the New Siberia islands. No land was sighted north of 82 degrees of latitude or thence to Franz Josef Land, where he passed the winter, subsisting on bear's flesh and whale blubber. Dr. Nansen and his companions are in the best of health. The Fram is expected at Vardo or Bergen shortly. She stood the ice well. There were no sick persons aboard when Nansen left her.

Dr. Fridtjof Nansen, the Norwegian scientist, now about 36 years of age, sailed from Christiania on June 24, 1893, on a voyage of discovery to the Arctic regions and with the intention of reaching the north pole if possible. He embarked on board the 3-masted schooner, the Fram, which was provided with a 160-horse power steam engine. She was of 800 tons and her sides were so constructed as to force all ice meeting the vessel under it, thus preventing all "pinching" and screwing. The Fram was launched at Laurvik, near Christiania, on Oct. 26, 1892, and the Norwegian parliament gave Dr. Nansen about \$52,000 in aid of his expedition. Additional funds were forthcoming by private subscription, including one of over \$5,000 from King Oscar.

The Fram was in every way admirably equipped and had a crew of 12 men, all of whom occupied the cabin, which measured only 13 feet square and which was heated by means of an English petroleum stove, which consumed three litres of petroleum a day.

The Fram (forward) had enough fuel on board to last eight or nine years, and she also had a library consisting of about 1,000 books.

Dr. Nansen's plan was to make for the New Siberian islands and thence sail directly north until the Fram should be imbedded in the ice. She then proposed to drift along with the ice, following the west coast of any land that might be met. A dispatch was received from the doctor at Vardo on Aug. 23, 1893, written in the Yagorski straits, on the second day of that month, announcing that the expedition was about to sail into the Kara sea and that the Fram so far had behaved splendidly.

Dr. Nansen entered the university at Christiania in 1880, and in 1882 went as a passenger on the sealing steamer Viking to Denmark straits and the east coast of Greenland. It is believed that this voyage laid the foundation for the ambition of his life, namely that of discovering the north pole. On his return from Greenland he was appointed curator of the museum at Bergen and held that position until 1888, when he led a small expedition to Greenland, crossed the southern portion of that country from the east coast to Godhaad on the west coast, where the party wintered and returned to Norway in June, 1889.

In September, 1889, Dr. Nansen married Miss Eva Sars, youngest daughter of the late professor of zoology at the University of Christiania. Mrs. Nansen has all along had supreme faith in the eventual return of her husband. She has a powerful musical voice, was a professional singer before her marriage and has since appeared before the public on various occasions. Dr. and Mrs.

Nansen have one child, a daughter. Since Dr. Nansen's departure for the Arctic regions there have been a number of reports circulated regarding his safety, but they have all, up to the present, turned out to be without foundation.

The Windward of the Jackson-Farnsworth expedition, which brought Dr. Nansen to that island, left Vardo for Franz Josef Land in order to bring back the British expedition June 28 last.

The dimensions of the Fram were length, 125 feet; beam, 36 feet; depth from deck to keel, 17 feet. With her cargo she was about 800 tons dead weight and her hull was built almost entirely of oak and in the strongest manner possible. At the points exposed to pressure from the ice, her sides from 30 to 32 inches thick, and her hull was coated on the outside with ice sheathing, composed of a thick layer of green heart, a hard American wood, which has an oily surface.

There have been a number of attempts to reach the north pole. The attempt now in progress by the Jackson-Farnsworth expedition, whose ship, the Windward, has brought Dr. Nansen back to Norway, commenced in July, 1894. The Windward took the expedition to Franz Josef Land, where depots were established, preparatory to the march northward. The Windward returned and was on her second trip to Franz Josef Land to bring back the expedition, when the news had been flashed from Norway that she is returned to Vardo with Dr. Nansen.

### MILLAIS DEAD.

The Great Painter's Earthly Work Is Done—Was Ruskin's Friend.

LONDON, Aug. 14.—Sir John Millais, the distinguished painter, president of the Royal Academy, died at 5:30 o'clock yesterday afternoon.

Sir John Everett Millais was born at Southampton in 1829. At the age of 11 he became a student at the Royal Academy, gaining the principal prizes for drawing. At the instance of Dante Rossetti and Holman Hunt, he set up a school of painting from nature. The institute obtained the title of "Pre-Raphaelite." In 1863 he became a member of the Royal Academy, and was made its president about three years ago. He was made a baronet in 1885.

An interesting story has often been told regarding the life of the dead artist. In early life John Ruskin, who was his friend, gave him a commission to paint his wife's portrait. Ruskin went about his books while painter and subject sketched and chatted. In a month the great critic saw all. His wife loved the painter and the painter loved his wife. Ruskin secured a divorce and gave away the bride on the day that Millais was married. That bride was the former Mrs. Ruskin. Then the great Englishman returned to his books and became a recluse.

### HEAVY FOG

Causes a Collision in the St. Lawrence. The Neptune Splits.

QUEBEC, Aug. 14.—An accident due to a heavy fog occurred in the St. Lawrence below this city last night. The steamer Neptune, Captain Allen, which sailed from here last night with a lumber cargo for Liverpool, collided with the Allan line steamer Scandinavian, which left here yesterday for Glasgow.

The Scandinavian was riding at anchor. The current carried the Neptune broadside across the Scandinavian with terrific force. Both vessels quivered from stern to stern.

The Neptune's engines were going at full speed astern when the Scandinavian was sighted, but their headway could not be slackened in time to avoid a crash. The Neptune has a cut 15 feet wide and extending below the water line. The collision was so heavy that it caused the port side opposite the cut to bulge out about seven feet. The Scandinavian appeared not to have sustained any damage beyond forcing her windlass out of its bearings. Shortly afterwards, the weather having cleared, the Scandinavian weighed anchor and proceeded on her voyage. The Neptune later was docked in Louise Basin and repairs will be commenced at once.

### Our Exports Increasing.

WASHINGTON, Aug. 14.—The bulletin of the bureau of statistics shows the values of the principal articles of export for the month of July as compared with July, 1895, to have been as follows: Mineral oils, \$5,498,917, increase \$503,859; cotton, \$3,601,343, increase \$1,687,364; breadstuffs, \$12,410,668, increase \$3,910,355; provisions, including cattle and hogs, \$13,891,757, decrease \$137,630.

### Fanatics and Filibusters Fight.

PHOENIX, A. T., Aug. 14.—The following dispatch to Governor Franklin was received here: An assault was made on Nogales, Sonora, by filibusters. Three Mexicans are dead. Seven filibusters dead and captured. The party were Santa Teresa fanatics now heading toward Tucson and Solomonville. Nineteen from Arizona and 40 from Mexico were in the fight against officers.

### Sawmill Boiler Kills Four.

NAVASOTA, Tex., Aug. 14.—An explosion occurred at Somerford's sawmill near here yesterday. The dead are: Jim Winzers, Ben Johnson and William Henry. Ned Johnson was fatally scalded, while Frank Somerford, M. R. Henry and Ned Henry were seriously hurt. The explosion was caused by the water in the boiler getting too low.

VAN WERT, O., Aug. 14.—The 10-year-old boy of Ed Carothers fell off a wagon loaded with stone and was run over and killed. Carothers' younger child was burned to death only a few months ago.

### STREAMS TURN INTO TORRENTS.

And Death and Destruction Follow—Six Lives Sacrificed and Thousands of Dollars Worth of Property Laid in Waste—Dehaven, a Small Suburb of Pittsburg, Bore the Brunt of the Storm.

PITTSBURG, Aug. 14.—Yesterday morning at 8 o'clock this city and vicinity was visited by one of the heaviest and most persistent downpours of rain that has been seen here for years. It carried death and destruction with it, and as a result six lives were sacrificed and thousands of dollars worth of property laid waste.

The dead are: Mrs. Susan Auld, widow, aged 74. Mrs. Ellen Poppleton, widow, aged 59 years. Mrs. Florence Robinson, her daughter, aged 34. Martin Cochran, infant. Oneil Schaffer, 10 years. Unknown man.

The storm came from the southwest preceded by dark and threatening clouds which obscured the sun and enveloped the city in an almost Egyptian darkness. As the gloom began to dispel, the rain came in torrents and for an hour the downpour was terrific. It then let up slightly, but for three hours longer it rained without ceasing. Up to noon 2.24 inches had fallen, 1.80 of this being precipitated during the first hour. In the immediate city, little damage was done, but the suburbs and small towns nearby suffered severely.

Dehaven, a small oil town on the Pittsburg and Western railroad, about 10 miles from here, had to bear the brunt of the storm's fury and it was there most of the lives were lost. The little town of 600 inhabitants is situated in a valley just at the junction of two creeks and every heavy storm fills these creeks and floods portions of the place. When the storm burst, the house of James Robinson was made the place of refuge by 10 people. Of this number three women were drowned. The storm partook of the nature of a cloudburst and filled the streams to overflowing with wonderful rapidity. A torrent of 18 feet came rushing down and struck the Robinson residence with terrific force, carrying it from its foundation and toppling it over into the swirling flood.

The house collapsing, as it was carried along, was lodged against some willows along the bank and the occupants who had clung with desperation to the ruins, were enabled by superhuman efforts to make their escape to land, all except the three women mentioned above, who were drowned and their bodies washed down the stream.

Little Martin Cochran was in bed sick with scarlet fever when the flood entered his father's house. The shock and exposure brought his life to an end within an hour or two.

Omiel Schaffer was standing on the Pittsburg and Western bridge at Sharpsburg with thousands of others watching the high waters. He attempted to catch a piece of driftwood, lost his balance and was caught by the torrent and whirled into eternity in an instant, while the onlookers were powerless to help. The other victim was an unknown man whose body was seen floating down Goar Head creek, past Dehaven.

Pine creek, from its mouth at Sharpsburg to Dehaven, is a sorry looking spectacle. Every foot of level ground was under water for several hours and miles of gardens and little truck farms were washed out. The west end of Sharpsburg and Etna were flooded and the water was four feet deep in Spang & Chalfant's mill, putting out the fires and compelling the workmen to abandon the building, some having almost to swim out. The firm's loss will be about \$10,000 and new furnaces will have to be built. The Pittsburg and Western railroad has been blockaded practically all day and considerable loss will result.

The loss at Etna will amount to between \$75,000 and \$100,000, divided principally between Spang, Chalfant & Company, Allegheny salt works, Pittsburg and Western railroad and the residents of Main and Bridge streets.

At Bowerstown the greater portion of the town was under water. The heaviest loss is to the farmers. Livestock was drowned and crops ruined. Evergreen people fared badly. Trees were blown down, stables wrecked and small outbuildings torn from their foundations. The huge volumes of water rushing down the roads resembled rivers. Foundations of houses being built were weakened.

Irwin, a thriving town on the Pennsylvania railroad about 20 miles east of here, also suffered much property damage, but no lives were lost.

At noon word was received that the Fort Pitt dam at Jeanette had burst and the water was rushing toward Irwin.

Warning was immediately given the people living in the lowland on the west side of the railroad, but before they could get away the flood came rushing down Brush creek, carrying railroad ties, telegraph poles and debris of all kinds. The car shops of the Westmoreland Coal company was the first to suffer, the employees being compelled to flee for their lives, many having to wade through the water to their shoulders. The women and children living in the houses near the shops were forced to the upper stories and roofs. Rescuing parties were formed and the imperiled ones were taken down in boats and, where

the water was lower, on the backs of men.

When the waters of Brush creek had reached its height the Pennsylvania Plate Glass company's dam, which had been partially repaired since the other flood, burst again and its waters came rushing through Tinker Run, flooding on its way the Parr wagon works, the Hockensmith foundry and machine shops, and planing mill and lumber yards of the Irwin Lumber company. The damage at the machine shops will run into thousands of dollars. The depot of the Pennsylvania Railway company spans Brush creek and the large platform used for receiving freight was carried away together with several hundred dollars' worth of freight ready for shipment.

The railroad bridge of the Westmoreland Coal company at Larmer was taken away and about 300 yards of their track washed out. The waters of Tinker run and Brush creek meet west of town and the combined waters rushed upon the inhabitants of South Side, flooding their homes and carrying away hundreds of dollars' worth of household furniture.

At Peen and Manor, the loss to the residents will be immense, as about 60 houses in the two towns are almost submerged.

The mining village of Claridge, on the Manor Valley railroad near Greensburg, was almost wiped out by the cloudburst, but no lives were lost. The Manor Gas and Claridge Gas companies' mines are flooded and great damage done.

### Damage at Bellefonte.

BELLEFONTE, Pa., Aug. 14.—The most violent storm ever experienced in this section passed over this section last night doing considerable damage. The elevated road at A. G. Morris' limestone quarries was blown down and completely ruined. The damage to the apple crops throughout the county is enormous.

### DISCREDITED

The Report of Counterfeiting American Dollars in Central America.

WASHINGTON, Aug. 14.—The secret service bureau of the treasury department has been requested to inquire into a report of extensive counterfeiting of United States silver dollars in one of the Central American states. The information comes from a Mexican paper and was sent to the state department by Minister Ransom. It states that in one of the Central American states a company has been organized by Americans who have purchased the silver dollars of the state worth 47 cents and coined them into American dollars. It is said that 2,500,000 of these dollars have been shipped into this country where they have passed at par.

The story is discredited at the treasury department and it is said that it would be impossible to ship any considerable number of coins into this country without the counterfeit being discovered. If counterfeiting has been going on the guilty persons could be punished under the treaties providing for such crimes, which have been made with nearly all countries.

### Married Despite Opposition.

TERRE HAUTE, Ind., Aug. 14.—At last Sarah Blinn and Francis Marion Combs are one. They were married at Paris, Ill., the Rev. Mr. Harkness of the Presbyterian church officiating. Miss Blinn is the spinster, whose sister, Charlotte, has been trying to have her declared insane, in order to prevent her from marrying Combs. The jury disagreed at the first trial, and the couple slipped away and were married before a new trial could be had. They will leave for an extended wedding trip. The whole north end turned out to give them a rousing charivari.

### Territorial Question Settled.

WASHINGTON, Aug. 14.—A long contest is practically ended by the action of Acting Secretary of the Interior Reynolds yesterday in awarding to the city of Guthrie, O. T., lands in Block 55 of that city, as against Thomas D. Hance and Andrew Frink and William Lowe, the last of the claimants. Numerous parties have figured in the case and much conflicting evidence has been filed.

### Red Men's Pow Wow.

MARTINSVILLE, Ind., Aug. 14.—The pow wow of Red Men closed. K. M. Hord of Shelbyville was elected president, Charles Breeden of Edinburg, secretary, and Henry Riggan of Martinsville, chairman of a committee looking to the submission of bylaws and a constitution for action at the next annual pow wow, to be held at Shelbyville.

SOMERVILLE, Tenn., Aug. 14.—William H. Whitlock was hanged here yesterday in the presence of a large crowd of people. The crime for which Whitlock was hanged was for the murder of Constable W. D. Holliday, near La Grange, Tenn., on Aug. 9, 1895. Whitlock died proclaiming his innocence.

### PORTSMOUTH, O., Aug. 14.—

Lorenzo Dow McKinney, who gained so much notoriety by having his funeral preached while living, has ever since been a shining mark for letter writers. During the past week he received one from a young girl in Valparaiso, South America, and one from a daughter of sunny Italy mailed at Naples.

### Two Assignments.

ADAMS, Ind., Aug. 14.—William F. Keesling, a farmer, near Horace, has made an assignment to Harrington Boyce for the benefit of creditors. Assets, \$20,000; liabilities unknown. Sarah Goodwin also made an assignment to Mr. Boyd, she being on Keesling's paper as indorser.

## FOUR ARE LIBERATED

Irish Prisoners Released in England Yesterday

### TO PREVENT DYING IN PRISON.

Daly, Delaney, Gallagher and Whitehead, the latter two American citizens, found guilty of conspiracy a dozen years ago and sentenced to penal servitude for life—Great Rejoicing for Irishmen.

LONDON, Aug. 14.—In the house of commons yesterday the secretary of state for home affairs, Sir Matthew White Ridley, announced that upon the medical report, it had been decided to release on license, Daly, Delaney, Gallagher and Whitehead, the four Irishmen imprisoned for conspiracy against the government in connection with the dynamite explosion of some years back.

### THE NEWS IN NEW YORK.

The Men Will Be Received With Open Arms by the Nationalists.

NEW YORK, Aug. 14.—The news of the release of Dr. Gallagher and other Irish political prisoners was received with delight by Irishmen here, though they declare it was done only to prevent the men dying in prison.

William Lyon, president of the Irish National alliance, was especially bitter in his remarks and said if the released men come to America they will be received with open arms by the Nationalists. James F. Egan, who was convicted with Daly and released, is here and says the Amnesty association will continue to work for the other prisoners' release.

All of the men released were arrested during the dynamite scares of 1883 and 1884.

Dr. Thomas Gallagher and Albert George Whitehead, both American citizens, were arrested in London in company with John Curtin Kent and Henry Hammond Wilson early in 1883 and on June 14 of that year they were found guilty of treason felony, and sentenced to life imprisonment. Kent was released from prison one year ago and is now in the United States. Dr. Gallagher was a resident of Greenpoint, L. I., where he is said to have enjoyed a large practice. In order to make their punishment greater, a special act was passed under which the men could be tried for treason felony. They were charged with the manufacturing of dynamite bombs or having bombs in their possession.

John Daly was arrested April 11, 1884 at Birkenhead with two bombs in his possession. On the same day James A. Egan, with whom Daly lived in Birmingham and who is now in the United States as a delegate from the Amnesty association, was also arrested. Both men were found guilty of treason felony at the Warwick assizes in July 1884. Daly was sentenced to penal servitude for life and Egan to 20 years' imprisonment. Egan was released Jan. 19, 1893.

At the last general election Daly was elected without opposition to represent the city of Limerick in parliament, although he was then wearing the convict's clothes. Immediately afterward he was selected by the Limerick board of aldermen for the office of high sheriff.

Thomas Devaney was arrested with nine others in Glasgow in 1883 on similar charges and was sentenced to penal servitude for life.

### TWO WILL DIE.

Others Were Badly Injured by a Boiler Explosion.

LOUISVILLE, O., Aug. 14.—Yesterday morning all Louisville was shaken and a few minutes later almost panic-stricken when it became known that the tile and brick works, one of the most extensive industries in the town was a total wreck from a boiler explosion. The wreck caught fire, adding terror to the effects of the shock from the concussion. At first the report was that a number of employes had been killed outright, and that there were not a little short of miraculous. All have been accounted for. Isaiah Johnson, engineer, and Lee Eshelman were fatally injured. Both reside in Louisville and have families. The badly injured are: Sheridan Lee, William Sefong, James Grayer and John Rufenhel. All received serious but not necessarily fatal injuries. A number of other employes were more or less cut and bruised. The damage to the plant will amount to \$10,000, on which there is no insurance. The cause of the explosion has not yet been ascertained.

### Italian Lover's Crime.

CLEVELAND, Aug. 14.—Michael Vacquiralla, a young Italian, Wednesday night fatally stabbed Mrs. Marie Penzilli of 131 Carabelli street. The young woman, who was quite handsome, lingered all night in a semi-conscious condition and died yesterday morning. She was married in Italy, but her husband returned to his native land two years ago, leaving her alone. Vacquiralla knew and loved the woman in Italy before she was married, and when her husband left her he made advances, which were spurned. Vacquiralla has not yet been captured.

### Outlaw Shoots an Alabama Deputy.

BLOCTON, Ala., Aug. 14.—Bart Thrasher, the noted Bibb county outlaw and murderer, has added another to his list of killings by shooting Deputy Sheriff Bass. Elisha Thrasher was killed in February last by officers while resisting arrest, and Bart Thrasher had sworn to kill the officers and has kept his word so far as Bass was concerned.

THE New York News says: "Mr. Bryan's speech was not what his enemies expected it would be. Those who went to hear a 'boy orator' with cyclonic Western mannerisms, were woefully disappointed. They saw a grave, dignified, handsome man, and they listened to an exhaustive, argumentative, logical and impressive arraignment of the party of the classes and an eloquent appeal for the preservation of the principles of Jefferson, Jackson and Lincoln. It was the effort of a statesman."

And those people who denounce him as an anarchist, and imagine it will be dead easy to beat him in November will be "woefully disappointed."

In June, 1886, an important meeting of the British and Colonial chambers of commerce was held in London, England, at which there was an animated discussion of the silver question and its bearings upon the commerce of India, says an exchange. Sir Robert Fowler, M. P., the London banker and ex-Lord Mayor, said "that the effect of the depreciation of silver must finally be the ruin of the wheat and cotton industries of America, and be the development of India as the chief wheat and cotton exporter of the world." It is an historical fact India wheat and cotton never came in competition with the American product until after the demonetization of silver.

### THE EFFECT OF FREE COINAGE.

Hon. W. H. Grenfell, the Chairman of the General Council of the English Bimetallic League, writes as follows in reply to certain inquiries submitted by the New York World (gold standard journal): "I believe that free and unlimited coinage of silver at the ratio of 16 to 1 in the United States would greatly increase the chance of an international agreement for the adoption of bimetalism. I attended the last two international bimetallic conferences in Paris and Brussels, and I came away from both with the impression that each European country wanted England to show the way; and that if they wait for England they will wait forever. We have a century of monometallism behind us, and the forces opposed to any radical change are too strong. What is wanted is an electric spark, and this will not come from England. I hope it will come from the United States. When the first step is taken, I believe that other countries, such as France, Russia, and in time Germany, will join, England will open its Indian mints again, and we should have a stable bimetallic par of exchange all over the world. My own humble opinion is that the United States are big enough and strong enough to maintain a par of exchange. I believe that there would be such a stimulus to trade and such an increase in the exports of the United States that gold would begin to flow back in a natural manner. I believe that the way for the United States to keep their gold is to go on to silver. On this point I inclose two cuttings from Cernuschi."

The cuttings from Cernuschi are not published in the World, but they are doubtless from the recent article in the Paris Economiste, in which he declared that "inasmuch as England's attitude prevents the realization of bimetalism, I would not hesitate, were I a citizen of the United States, to become a silver monometallist."

### A Household Treasure.

D. W. Fuller, of Canajoharie, N. Y., says that he always keeps Dr. King's New Discovery in the house and his family has always found the very best results follow its use; that he would not be without it, if procurable. G. A. Dykeman, druggist, Catskill, N. Y., says that Dr. King's New Discovery is undoubtedly the best cough remedy; that he has used it in his family for eight years, and it has never failed to do all that is claimed for it. Why not try a remedy so long tried and tested? Trial bottles free at J. James Wood's drug store. Regular size 50c and \$1.

### SPRINGDALE.

The land that was overflowed by the backwaters recently has a very desolate appearance since the water left it.

A few of our farmers will begin cutting tobacco this week. The crop in this vicinity is the best in quality that has been raised in years.

Born, on Saturday, to Mr. and Mrs. Charles Moore, a daughter. The child died about midnight. Mrs. Moore is doing as well as could be expected.

I see the veracity of the BULLETIN's Springdale correspondent is called in question by the East Limestone correspondent. We are not much of a Biblical student, but as well as our memory serves us Ananias didn't lie about what other people did, but he represented he owned 145 acres of land, when really it was 245 acres, or else he made a false statement about how much pike he had built or some other such misrepresentation, but had Ananias lived in this day he would have taken his case to the Court of Appeals before he would have dropped dead. We are not subject to heart disease as he was, and if that law had not been repealed ere this day, no other business would have paid as well as undertaking. Now we say in conclusion that the Springdale correspondent has never misstated anything, never written anything but facts, else why was nothing said about it at the time? Why wait till the management of the road was changed and the road put in good order and then shout fire? If the road was such a model why did the County Commissioners change the management of the road?

### MAYSLEICK.

Miss Mary Wilson Jackson is visiting at Nephew.

Mrs. Jennie Wheatley left for her home in Kansas Wednesday morning.

Eneas Myall takes the belt on tomatoes. Some presented to J. A. Jackson weighed two pounds.

Mrs. John Shuff, of Atlanta, is here visiting her father and mother, Mr. Henry Thompson and wife.

This is a year of plenty; all kind of vegetables in abundance. Such tomatoes scarcely ever seen before.

John S. Mitchell, son of S. H. Mitchell, has been poorly for several days past, but is some better.

C. Burgess Taylor, with his two sisters, Miss Bessie and Anna, and brother Hiram, were here last week.

One man came in last Saturday morning and called for his account and paid. Times are getting better.

A. B. Moody, of Cincinnati, and Miss June Pelham, of Maysville, came up last Monday from Maysville to see their old friends.

Dr. M. H. Davis took with bleeding at the nose, having a severe hemorrhage last week. All the doctors here and two from Maysville attended him.

J. A. Jackson has had his roof painted with his new paint. 'Tis very fine. He has some to sell. Those needing paint for their roofs would do well to see it.

W. LaRue Thomas was here last week mixing with our citizens. He seemed to be in fine spirits,—he said if he failed to get Mason County he was no candidate.

Miss Anny Berry, the dressmaker who has been here so long, has closed her shop for good and left us. We are sorry for it, she was a fine lady and well thought of.

### STONELICK.

Uncle Press Tolle is on the sick list.

Protracted meeting is going on at Stonelick meeting house.

Miss Alene Tolle is spending several days with relations at Pence Station.

Mrs. Holiday, of Millersburg, is visiting her son, Mr. John W. Holiday.

Mr. Lee Mason, of Maysville, and Miss Alberta Darnall attended camp meeting Friday night.

Miss Alene Tolle, of Orangeburg, spent last week with her brother, Mr. Elwood Tolle, of Weldonia.

Mrs. Frank Long, of Clark's Station, and Mrs. Carrie Sinclair, of Georgetown, Ky., are visiting relatives in Flemingsburg.

Mrs. Sallie Bullock, who was paralyzed some time ago, had another slight attack. She is quite low and is not expected to last long.

Matt Tolle, of Pence Station, returned home Wednesday after spending several days very pleasantly with relations and friends in this vicinity.

Mr. Jones, while looking at his sheep the other day, was sent a "bug hunting" by the old "head of the flock" getting in his rear and butting him in the soft part of his back.

Miss Masterson, of Fleming, is visiting Miss Carrie Long. Miss Carrie is a pleasant hostess, and Miss Masterson is making many pleasant acquaintances. Miss M. is a fit representative of the fair ladies of Fleming.

Mrs. Kate Anderson and Miss Rosa Wallingford, of Newport, and Miss Emma Wilson, of Covington, are visiting the family of Mr. Lewis Long.

Mrs. Anderson's brother was one of the unfortunate young men who were shot under infamous order of General Steve Burbridge during the civil war. Young Mr. Long would not have his eyes bandaged, neither would he kneel, but faced his executioners, looking firmly into the muzzle of the guns that took his young life. He died with his character unblemished.

We had the pleasure of meeting our genial friend Dr. Long at his mother's, Mrs. Frank Long's. Dr. Long is located at Lewisburg. He says he is doing a fair business and hopes by patience and a strict fulfillment of duty to his patients to get a liberal share of practice. We do not see why he should not. He has not only a finished medical education but is a genial, moral, upright gentleman. He has our good wishes to that end. Mr. Hord Long, the doctor's brother, is at home with his mother and is making quite a success on the farm.

### Sure to Win.

The people recognize and appreciate real merit. That is why Hood's Sarsaparilla has the largest sales in the world. Merit in medicine means the power to cure. Hood's Sarsaparilla cures—absolutely, permanently cures. It is the one true blood purifier. Its superior merit is an established fact, and merit wins.

Hood's Pills are easy to take, easy to operate. Cure indigestion, headache.

Home grown melons,—Calhoun's.

## Merit

Made and Merit Maintains the confidence of the people in Hood's Sarsaparilla. If a medicine cures you when sick; if it makes wonderful cures everywhere, then beyond all question that medicine possesses merit.

## Made

That is just the truth about Hood's Sarsaparilla. We know it possesses merit because it cures, not once or twice or a hundred times, but in thousands and thousands of cases. We know it cures, absolutely, permanently, when all others fail to do any good whatever. We repeat

### SHAMEFUL!

The Despicable Efforts of Some Life Insurance Companies Against the Free Silver Cause.

Editor Bulletin: Of all the mean, contemptible things resorted to by the advocates of the McKinley gold bug theory to impose still greater wrongs upon the people, it seems that none have equalled the low-down dirty conduct of the Connecticut Mutual Life Insurance Company through its President Jacob L. Green, if the report of his conduct is true.

It is currently reported that said Green has caused to be mailed to the policy holders of said company a notice to the effect and meaning that if Bryan and Sewall should be elected, and free coinage of silver be established, their widows and heirs, in case of death, will be paid the amount of the policy in a "depreciated money."

If Green said this, in words or in substance, he knew that he was uttering a falsehood, made and published to either intimidate, or bribe and corrupt the American voter, or both, and to threaten the voter by a process that would compel him to vote for McKinley.

He knew and now knows that the death loss would be paid in the current money of the United States,—gold, silver or paper, worth one hundred cents for every dollar.

I am informed that such notices have been received by persons here in Maysville. Such conduct is not only contemptible, but shameful; and is another one of the many evidences of the desperate straits to which the enemies of the people are driven to carry out their scheme of robbery.

Are the American people cowards, that they can be frightened by such threats as this?

Are they slaves, that they can be driven by such lordly masters?

Have they lost their manhood, that they can be bought with such bribes?

God forbid. Voters! Freemen! put your seal of condemnation on such outrages, at the election in November.

By the report of the Insurance Commissioner of Kentucky it is shown that this same Connecticut Mutual Life Insurance Company has loans on mortgages \$37,669,494.86, and owns stocks and bonds to the amount of \$13,025,691.50. The bulk of this thirty-seven millions of dollars of mortgages, if not quite all of it, is upon farms.

I wonder if that is the reason why President Green wants to fasten the gold standard on the poor farmers?

My attention has also been called to the fact that this same band of Wall street gold advocates have invaded the sacred precincts of the Young Men's Christian Associations, where politics are not allowed to enter, and, with an impudence born of the devil, have scattered gold bug pamphlets and other literature broadcast over their rooms with a will to even dethrone Christ and destroy this noble band of Christian workers, if it would aid them in their shameful scheme.

No wonder that the Immaculate Son of God made a lash of cords and drove such as they out of the temple at Jerusalem which they had defiled.

A MAN may dress as well as his own good judgment and the assistance of an artistic tailor may elect. He may take his "tubs" but if his digestive organs are out of order, he will have an unwholesome appearance. His complexion and the white of his eyes will have a yellowish cast. His tongue will be coated, appetite poor, his teeth rusty, his breath abominable. He is one big, unmistakable sign of constipation.

The quickest, surest, easiest way to cure this trouble is to take Dr. Pierce's Pleasant Pellets. They are made of refined, concentrated vegetable extracts. Nothing in the least harmful enters into their composition. They hunt down all impurities, and "make them move on." They are the product of many years' study and practice. Dr. Pierce cannot afford to put forth a worthless article.

### Scarcity of Jockeys.

We never were so badly off for jockeys as we are just now, and that's saying a good deal. Things are reaching such a pitch that it looks as if the day cannot be far distant when the scale of weights must be raised. This seems to be the only possible remedy. The actual facts of the case are that we have only about half a dozen jockeys who can be reckoned thoroughly capable, and even with them it is a bold man who will claim that they are thorough horsemen. Then come a herd of rattlebrained, uneducated boys, who have learned to ride because there was some natural talent latent in them, but whose brains are not of the material to learn their business thoroughly, even with experience, and who, having reached a certain point, stand still indefinitely.

## Friday's Cash Sale

Last Friday's rain disappointed so many of our patrons, we continue last week's bargains, with some new attractions for economical buyers.

**SUMMER BLANKETS.**—The cool nights of September are fast nearing, and the most cleanly, healthful, comfortable bed covering, as well as the cheapest, are light-weight Blankets. Comfortables, with their stiffness, weight, poor laundering qualities, microbe inviting corners, are things of the past with hygienic, up-to-date housekeepers. And who can't have cleanliness and comfort with Blankets priced at 75c., \$1.15, \$1.50 a pair?

**HOSIERY.**—We take a just pride in being known as the foremost hosiery sellers in this section. People are always needing stockings. Wonder if this won't interest you. Fast black, double-sole, 40-gauge Women's Hose, 18c. a pair, or two pair for 35c. Like Hosiery never crossed our counters before for less than 25c. a pair.

**SERGE.**—For school dresses, wrappers, women's gowns. We won't tell its worth. Come and see the value you'll get for 23c. a yard.

**PERCALES.**—Best quality, yard-wide, regular 12c. goods, 10c. Buy now for the boy's school waists. Still a large assortment from which to select.

**SHIRT WAISTS.**—Not a great many, but just as good values in the few as when the stock was unbroken. All shirt waist accessories, too. New Belts, Ties, Collars and Cuffs. Just received. No old stock. Everything in this line absolutely new.

**INDIGO PRINTS.**—Best American make, highest grade in the market, regular 7c. goods, 4c. a yard. Orders not filled. Must buy direct.

## TWO GAMES TO-DAY.

Newton Had the Lexingtons at His Mercy Yesterday, and Maysville Won.

The following is the standing of the Blue Grass League clubs, including all games played:

Clubs.	Won.	Lost.	Played.	Pr.Ct.
Lexington.....	5	1	6	.833
Maysville.....	3	1	4	.750
Paris.....	2	2	4	.500
Mt. Sterling.....	0	6	6	.000

Yesterday's game at Lexington resulted in a victory for Maysville, by a score of 4 to 1. Newton was in the box for the locals and had the Lexington sluggers at his mercy. He let them down with two hits, and would have given them a coat of whitewash had it not been for a wild pitch. The ball that let the one run in wouldn't have been a wild pitch had Kellner been in his usual condition, but he is suffering from a "game" leg and the ball got past him. The boys were ashamed of their poor work in the first game and gave Newton almost gilt-edged support. Kostal, the Louisville league pitcher, farmed to Lexington, was touched up for nine hits by the locals, five of them bunched in one inning.

The Maysvilles returned last night and meet the Lexingtons in two games to-day at the park in Sixth ward. These will be the first league games played here. The first was called at 10:30, with Curle and Lindsey as the opposing pitchers. The second will be called at 3 o'clock this afternoon, with Shepherd and Conover as the opposing pitchers. This will be the first appearance of these two pitchers in the box at the local park. Conover has won every game he has pitched against Maysville so far, and they will try to break the "hoo-doo" this afternoon. It will be a lively contest and will draw a big crowd.

Captain McGann has been playing gilt-edged ball since Boston signed him.

The Maysvilles go to Dayton, O., tomorrow, where they will meet the Gem City's new team.

Another ex-Maysville player has gone up into the big league. Chicago has signed Wellner, one of our crack '95 pitchers, but late of the Texas League.

Lexington Leader: "Kellner, the clever catcher of the Maysvilles, has a carbuncle on his left leg, but pluckily sticks to his work. Captain Tanner, of Maysville, is not popular with the Lexington fans but he is nevertheless a splendid ball player. Shepherd, the Maysville's new pitcher, is a good one. He looks a trifle high in flesh, but that is natural."

## SUNDAY SCHOOL CONVENTION.

The State Union to Meet at Owensboro August 25th—Counties Should Select Delegates.

The State Sunday school convention will be held at Owensboro August 25th, 26th and 27th.

Each county in the State is entitled to five delegates from the county at large and each Sunday school is entitled to one delegate for each one hundred scholars or fraction thereof.

Be sure to elect delegates. Certificates which will entitle you to reduced rates on railroads and free entertainment can be secured by applying to John Duley, President, or E. Swift, Secretary of the Mason County Branch.

## To Cleanse the System.

COUNTY JUDGE O'REAR, of Montgomery, decides that the Legislature had no right to pass a law requiring the Maysville and Mt. Sterling Turnpike Road Company to permit ministers of the gospel to pass over their road without paying toll. This decision affects the Maysville & Lexington turnpike road and others also.

DANVILLE Advocate: "Dr. H. M. Marsh and Prof. W. K. Argo are making a wagon trip at the rate of thirty miles a day from a section 200 miles westward of Colorado Springs. Doctor Marsh has about regained his health, but has struck a rainy season in Colorado and will probably return to Danville by the first of September."

JOHN BURKE, of Mayslick precinct, who was cut and dangerously wounded by his father this week, was somewhat better this morning and is doing very well. A report was current that he died last night, but this was not true. The father, William Burke, who did the cutting, was taken before Judge Hutchins yesterday, and his bail was placed at \$3,000. He gave bond this morning, with Mr. Patrick Maher as surety.

THE announcement of the engagement of Miss Alice Shelley Mulligan, eldest daughter of Judge James H. Mulligan, to Dr. P. H. Molloy, of Lexington, came in the nature of a most agreeable surprise to the society folk of that city. The wedding will take place in the chapel at "Maxwell Place," Judge Mulligan's elegant home, some time in October. Dr. Molloy's many friends in Mason join in congratulations in advance of the happy event. His boyhood days were spent at Germantown.

## Death of Mrs. Magdalena Roser.

Died, August 10th, at Ripley, at the home of her daughter, Mrs. E. Petry, Mrs. Magdalena Roser, mother of Mr. Louis Roser of this city and Mr. Jacob Roser, of Washington, of old age. Mrs. Roser was born at Reinfalz, Bavaria, and came to this country with her husband and family in 1852, settling at Ripley. In 1864 they moved to this county, where her husband afterwards died. She moved back to Ripley, with her daughter, Mrs. Petry, in 1887, where she had ever since resided. She was nearly eighty-six years old and was the mother of seven children, six of whom survive.

## Old People.

Old people who require medicine to regulate the bowels and kidneys will find the true remedy in Electric Bitters. This medicine does not stimulate and contains no whisky nor other intoxicant, but acts as a tonic and alterative. It acts mildly on the stomach and bowels, adding strength and giving tone to the organs, thereby aiding nature in the performance of the functions. Electric Bitters is an excellent appetizer and aids digestion. Old people find it just exactly what they need. Price fifty cents per bottle at J. James Wood's drug store.

## RAILWAY BULLETIN.

### Announcements of Excursions—Reduced Rates and Other Matters of Interest.

On account of the McKinley Club celebration at the Zoo August 19th, the C. and O. will sell round trip tickets from Maysville to Cincinnati, at one fare, \$1.75. Tickets good on trains Nos. 19 and 17; good returning August 19th and 20th.

Those who are interested in the beauties and wonders of nature are charmed with Oligo-nunk. It appeals only to the intelligent class. The ride over the picturesque C. and O. Ry. is worth much, but the tour into the heart of Honeycomb mountains is a revelation. The special train leaves C. and O. station every Sunday, Fourth street depot, Cincinnati, 8 a. m. and returns to the city promptly at 9:30 p. m. Only \$1 round trip.

The C. and O. will have on sale round trip tickets July 13th to September 30th, to the following points at rates named: Asheville, N. C., \$17.05; Ashland, Wis., \$20; Benton Harbor, Mich., \$13.05; Chautauqua Lake Points, N. Y., \$15.75; Colorado Springs or Denver \$34; Duluth, Minn., \$24; Eureka Springs, Ark., \$29.50; Niagara Falls, N. Y., \$18.75; Petas Key, Mich., \$20.61; Put in Bay, O., \$10.35; Sandusky, O., \$9.35. Very cheap round trip rate to all the Virginia Springs \$18.75.

**LAKE CHAUTAUQUA VIA BIG FOUR.**  
Excellent service is now given by the Big Four to Lake Chautauqua. Leave Grand Central Depot, Cincinnati, via the Southwestern Limited at 6:30 p. m., arriving Chautauqua 7:30 next morning. Rate from Maysville \$15.75.

Oligo-nunk, every Sunday, C. and O. route, \$1 round trip. A beautiful ride for 100 miles along the Ohio. A wonderful trip along the Kinnickinnick and an awe-inspiring tour into the heart of Honeycomb Mountains among the mysteries of thousands of years embodied in countless stalactites and stalagmites of fantastic forms. Novel, interesting and instructive. Go alone or make up a party. Special car and special guides for special parties. Leave Cincinnati Fourth street depot 8 a. m., pass Maysville at 10 a. m., arrive at caves 12:30 noon. Leave caves 5 p. m., reach Cincinnati 9:15 p. m.

**ALL ABOARD FOR THE RIPLEY FAIR.**  
On August 25th, 26th, 27th and 28th, the C. and O. will sell round trip tickets Maysville to Ripley at rate of 25 cents; return limit August 29th. Tickets good on the 5:30 and 8:50 a. m. and 5:15 p. m. trains. Train No. 19 will start from Kinney's Crossing, Sixth ward, each morning at 5:10, stopping at Lexington and Market streets for passengers.

**LIMITED EXCURSION TO MAMMOTH CAVE AUGUST 18TH.**  
Train leaves Lexington at 8:45 a. m. Round trip \$8. All lines have named reduced rates to Lexington for those wishing to visit the cave. Low rates at Cave Hotel and Cave Fees. Send your name and address to J. P. Moore, General Agent, L. and N. R. R. Lexington, Ky., that you may purchase tickets at the reduced rates.

**SEASHORE EXCURSION**  
Over picturesque Chesapeake and Ohio to Old Point Comfort. The annual excursion to the sea; shore is announced for Wednesday, August 5th; \$12.50 for the round-trip. Tickets will be good only on train No. 4, leaving Cincinnati 9:10 p. m. Stop overs will be granted at Richmond, Clifton Forge, Covington, Va., (Hot Springs), and White Sulphur Springs on the return trip. Tickets will be good to return until August 15th. This is the greatest excursion of the year—take a dip in the sea and enjoy the fishing and sailing it offers.

### WOMAN ACCUSED OF WITCHCRAFT.

**Driven Out of Town by Her Superstitious Neighbors.**  
ALLIANCE, Mich., Aug. 14.—The people of East Oversel, this county, are much excited over stories of witchcraft. The children of a certain family have been continually taken sick at night time. During the day they were apparently well, but at night they would chase each other around the farm, howling and screaming, and some of the superstitious people concluded that the children were under the influence of evil spirits.

As is usual in such cases, the first object attacked was the bed pillow. It was slit open with a knife and a mouse with a ribbon tied to its tail scampered out. Several ornamental designs of feathers were also found. Suspicion pointed to a certain woman. The day after the pillow had been cut open it was noticed that she had a cut on her hand. The people jumped to the conclusion that the wound was received when the pillow was cut open.

Several evenings later the windows of the supposed witch's residence were broken in. The next thing in order was an anonymous letter to the relatives of the woman, declaring she would have to get out of town and take her 10-year-old daughter with her. Relatives of the woman took her and the child away. Then the neighbors called on the husband and informed him that they could no longer associate with him, and he would also have to leave. In many ways the family were annoyed. The only thing that actually could be charged to the poor woman was that she had a violent temper. Within the past few days, however, the excitement has died down, and it is believed in a short time that the people will allow the supposed witch to return.

### SERIOUS TRAIN WRECK.

**Engineer and Fireman Killed and Postal Clerks Injured.**  
LAPORTE, Ind., Aug. 14.—The special mail and paper train No. 41, on the Lake Shore and Michigan Southern railway, which left the Union depot in Chicago at 2:45 yesterday morning, was wrecked at 3:58 a. m. at a point one mile east of Otis, this county, by a washout. The train consisted of five cars, two baggage and express cars, a day coach and a sleeper.

The road passes over a culvert spanning a creek east of Otis and the cloud-burst Wednesday night weakened the structure and lowered the track. The locomotive safely crossed the culvert before it left the track and turned completely over, the mail and baggage cars being piled up. The day coach remained on the track. The passengers—30 in number—had left the car but a few minutes when the culvert gave way and the coach sank into the creek, 50 feet below. The sleeper uncoupled and its occupants also escaped injury.

The engineer, James Griffin of Elkhart, and the fireman, Michael Rusch of Chicago, were killed. Rusch was buried under the tender. Griffin had both of his legs cut off, but he lingered an hour, suffering the most intense agony. The first words of the engineer when taken from the mass of debris, was to ask if his fireman was alive.

**Wants \$10,000 Alimony.**  
LAFAYETTE, Ind., Aug. 14.—Mrs. Louise Rund, wife of George Rund, a wealthy real estate dealer, has brought suit for divorce, alleging violation of the marriage vows and naming Mrs. Agnes Felbauer as co-respondent. Mrs. Rund asks for \$10,000 alimony. The couple have been married three years and are leaders in local German society. Rund is worth \$100,000.

**Buggies Burned.**  
KALAMAZOO, Mich., Aug. 14.—About a third of the Michigan Buggy company plant was destroyed by fire, which broke out at 6 o'clock last evening. Considerable stock in various stages of completion was burned. The loss is estimated at \$65,000; insurance, \$40,000. The works are the most extensive in Michigan, giving employment to several hundred men.

**FRANKFORT, Ky., Aug. 14.**—There is another ice famine in Frankfort, and it is difficult to secure a pound of ice. The local ice companies have broken down, and Frankfort is compelled to get such ice as she can from Lexington. This at present has not been sufficient to supply the demand.

**Modern Borgia.**  
MANSFIELD, O., Aug. 14.—Celia Rose, aged 24, daughter of a farmer near here, poisoned her father, mother and a brother because they objected to the attention paid her by Guy Berry, a neighbor's son. She was arrested and waived examination and was committed to jail.

**Two Men Had a Fatal 30-Foot Fall.**  
CHILLICOTHE, O., Aug. 14.—A traction engine on which were William Henry Hester and Otis Bayliss went through a high bridge over Dry Run yesterday. Both men are reported to have been fatally hurt. They had a 30-foot fall and were partially buried under the machinery.

**Gaudaur's Condition.**  
LONDON, Aug. 14.—Several well known sporting men met Gaudaur, the Toronto carman, at Waterloo station on his arrival here to prepare for his match with James Stansbury, the Australian champion. He said he never felt in better condition.

**Meeting in Secret.**  
LOUISVILLE, Aug. 14.—The L. A. W. racing board met last night at the Galt House and passed upon various matters which they declined to divulge. Chairman George Gideon presided and the members of the board were all present.

**Prize Fighter to the Pen.**  
NEW YORK, Aug. 14.—Alfred Griffith, "Young Griffo," the prize fighter, was sent to the penitentiary yesterday for one year for assaulting William Gottlieb. He pleaded guilty.

### Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only, and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.
